PROFESSIONAL SUMMARY

Cross-domain professional with 10+ years spanning international petroleum field operations, institutional management, and AI-augmented education — now operating fully as a remote AI practitioner. Independently designed, built, and deployed live AI tools, automation pipelines, and algorithmic trading systems. Proven track record leading international operations teams (Dubai), managing 100+ student institutions, and delivering consistent measurable outcomes across every domain. Seeking global remote roles in AI Operations, Automation, EdTech, and Data. Available immediately.

CORE COMPETENCIES

- AI Workflow Automation (n8n / LLMs)
- Operations Management & Team Leadership
- Data Analysis & Reporting
- SaaS Tool Development & Deployment
- Algorithmic Trading (Pine Script / MQL5)
- Curriculum Design & Instructional Delivery
- Process Optimisation & SOP Design
- Remote-First Async Project Execution
- EdTech Pedagogy & Learning Design
- HSE Compliance & Field Operations
- Content Engineering & YouTube SEO
- Stakeholder Communication & Reporting

LIVE PROJECTS & BUILDS

Prompt Engine Compiler <https://prompt-engine-compiler.onrender.com>

Web-based tool for structuring and compiling LLM prompts into production-ready outputs. Supports text and image inputs with file upload handling. Designed for AI practitioners and content teams working across multiple LLM providers.

Stack: Lovable · Python · FastAPI · Uvicorn · Google GenAI Python SDK · Pillow · python-multipart · python-dotenv · Render

AI Humanizer <https://humanizer-ai-3iz4.onrender.com>

Transforms AI-generated text into natural, human-readable content. Built for educators, writers, and content teams managing AI-assisted workflows at scale.

Stack: Lovable · Python · FastAPI · Uvicorn · asyncio · Google GenAI Python SDK · Instatunnel · Markdown · Supabase · Render

Clear Head <https://clearhead-dev.vercel.app>

AI-powered mental clarity and journaling app with Claude-driven reflection insights, immersive 3D visuals, and fluid animated UX. Persistent session history backed by Supabase with email notification workflows.

Stack: Next.js · React 18 · TypeScript · Anthropic Claude API · Three.js · Framer Motion · Supabase · Tailwind CSS

ClipCraft <https://clipcraft-dev.vercel.app/>

AI-driven, gothic-themed video editing platform that resurrects long-form footage into viral short-form clips. Leveraging LLMs & API and client-side WebAssembly FFmpeg, it automates transcription, moment detection, and browser rendering with zero server costs.

Stack: WebAssembly · Next.js · FFmpeg · LLM API · Vercel · Supabase

Privacy-First AI Automation Stack

Migrated cloud-based automation to a fully self-hosted n8n Docker instance on WSL2/Ubuntu. Configured autonomous LLM agents using Ollama and OpenClaw for private, local AI operations with zero cloud dependency.

Stack: n8n · Docker · WSL2 · Ubuntu · Ollama · OpenClaw

AI Tool Suite — Neuron Workflows

Multi-tool AI suite including: Question Paper Generator, Document Summariser, Trading Strategy Planner, and MQL5/PineScript Code Generator. Built for educational and trading automation use cases.

Stack: LLM APIs · n8n · Python

XAUUSD London–NY Gold Scalper

Custom algorithmic trading strategy for XAU/USD designed, backtested, and deployed on TradingView. Optimised for the London–New York session overlap with defined risk management rules.

Stack: Pine Script v6 · TradingView

Open-Source Forex Trading Textbook <https://github.com/priyanshbuilds>

15-module open-source educational resource covering Trading Psychology and Risk Management, with worked examples in Pine Script v6 and MetaTrader 5 MQL5.

Stack: Pine Script v6 · MQL5 · Markdown · GitHub

E-Commerce Product Data Scraper

Automated Python scraper for Meesho product catalogues; structured outputs for pricing analysis and inventory tracking.

Stack: Python · BeautifulSoup · Requests

PROFESSIONAL EXPERIENCE

AI Operations & Automation Lead

Independent · Remote · 2025 – 2026

- Designed, built, and shipped 6+ independent AI tools and automation pipelines across web, trading, and data domains
- Engineered a privacy-first self-hosted LLM infrastructure (Ollama + n8n on Docker/WSL2) eliminating cloud dependency for sensitive workflows
- Backtested and deployed algorithmic trading strategies for XAU/USD and BTC/USD using Pine Script v6 and MetaTrader 5
- Produced AI-driven video content at scale; managed full-cycle YouTube brand development applying Google-certified digital marketing principles
- Applied Deloitte and Coding Ninjas (IIT Bombay) analytics frameworks to drive signal accuracy and workflow optimisation across independent projects

Operations Executive

Petrochem Global International FZE · Dubai, UAE · May 2023 – Apr 2025

- Led a cross-functional field team of 4 in a full strategic overhaul of operations — delivered 30–40% improvement in process efficiency within tenure
- Produced 5–6 daily economic analyses and operational reports, reducing assessment turnaround time and improving decision accuracy
- Diagnosed and resolved critical operational bottlenecks via root-cause analysis, minimising downtime and risk across international field activities
- Maintained HSE compliance, SOPs, and regulatory standards; coordinated cross-functional stakeholders across field activities in UAE
- Conducted ongoing economic evaluations benchmarking performance against targets to inform procurement and resource allocation

Head of Operations & Administration · Head — Mathematics & Science

Excellent Brains Academy · Surat, India · May 2022 – May 2024

- Managed end-to-end operations for a 100+ student institution with 6–7 teaching staff and an annual operational budget of ₹7–8 lakhs
- Designed and implemented SOPs standardising workflows across academic, administrative, and support functions; oversaw batch scheduling, exam coordination, and academic calendars
- Led Mathematics, Physics, and Applied Science instruction for SSC and HSC students; designed specialised Data Handling & Statistics modules with consistently high board exam pass rates
- Conducted regular formative assessments and structured parent feedback cycles to monitor and accelerate individual student progress

Coordinator & Operations Lead · Mathematics & Science Teacher (Grades 6–9)

Noble Public School · Surat, India · Apr 2022 – Mar 2023

- Coordinated curriculum planning, timetable logistics, and KPI tracking; prepared progress summaries for senior management across multiple grade levels
- Delivered structured Mathematics (Grades 6–9) and Science (Grades 6–8) instruction with curriculum-aligned lesson plans and measurable performance gains

Private Tutor — Mathematics & Science

Self-Employed · Surat, India · May 2016 – Apr 2022

- Delivered personalised one-on-one and small-batch (up to 8 students) tuition in Mathematics, Physics, Science, and Statistics for Grades 5–11 across CBSE, ICSE, and State Board
- Maintained a 100% pass rate across all cohorts; majority achieved distinction-level results in Mathematics and Science
- Sustained a strong referral-based student base over 6 years; supported JEE/NEET foundation preparation and academic confidence building

Academic Counsellor

BYJU'S · Surat, India · 2021 (Short-term)

- Recommended structured digital learning pathways to students and parents; gained hands-on exposure to EdTech pedagogy and adaptive learning platforms

Administrative & Operations Executive

DL GTPL Cabnet Pvt. Ltd. · Surat, India · Apr 2015 – Sep 2016

- Managed back-office operations, documentation, customer care escalations, and vendor coordination; maintained high SLA compliance throughout tenure
- Maintained comprehensive accounting records and financial reporting; implemented process improvement initiatives reducing administrative overhead

EDUCATION

Bachelor of Education (B.Ed) — Mathematics & Science · HNGU, Mehsana · 2024 · CGPA 8.62

Bachelor of Engineering — Electrical Engineering · GTU, Surat · 2021 · CGPA 6.77 (First Class)

CERTIFICATIONS

Anthropic — AI Fluency & Claude 101 · Teaching AI Fluency · AI Fluency for Educators · Claude Cowork

OUTSKILL — GenAI Mastermind

Deloitte — Data Analytics Certification

Coding Ninjas × IIT Bombay — Data Analysis Masterclass

Google — Digital Marketing Fundamentals

Planet Spark — PSAT Certification, 93%

TOOLS & TECH STACK

AI & Automation: n8n · Ollama · Claude API · OpenAI · LangChain · Cursor · Lovable · Emergent · Antigravity · Codex

Data & Analytics: Python · Pandas · Tableau · Deloitte Analytics Framework · Kaggle

Trading: Pine Script v6 · MetaTrader 5 (MQL5) · TradingView

Deployment & Backend: Supabase · PostgreSQL · Vercel · Render · Docker · WSL2 / Ubuntu

Content & SEO: AI Video Generation · YouTube SEO · Google Digital Marketing

Productivity: MS Office Suite · Google Workspace · Notion
