

Priyansh Jain

OPERATIONS PROFESSIONAL · APPLIED AI PRACTITIONER

✦ jpriyansh1212@gmail.com ✦ +91 8849247117 ✦ Surat, India · Dubai, UAE

Results-driven Operations Professional with 10+ years of cross-industry experience spanning petroleum field operations, administrative management, and institutional leadership. Complemented by a dedicated year of applied upskilling in AI automation, algorithmic trading systems, and data analytics. Proven track record in team leadership, process optimization, and compliance-driven operations across international (UAE) and domestic (India) environments.

PROFESSIONAL EXPERIENCE

AI Operations & Automation Lead

2025 – 2026

Independent · Self-Directed Upskilling · Remote

- Engineered privacy-first automation pipelines by migrating cloud-based workflows to self-hosted n8n Docker instances, configuring autonomous AI agents using Ollama and OpenClaw on a dedicated WSL2/Ubuntu backend.
- Developed a comprehensive 15-module course on Trading Psychology and Risk Management; designed and backtested custom algorithmic strategies for XAU/USD and BTC/USD using Pine Script v6 (TradingView) and MetaTrader 5.
- Leveraged advanced data analytics frameworks from Deloitte and Coding Ninjas (IIT Bombay) to drive trading signal accuracy and workflow optimization across independent projects.
- Scaled technical content production using AI-driven video generation and advanced editing tools; managed full-cycle YouTube brand development applying digital marketing principles from Google certification.

Operations Executive

May 2023 – Apr 2025

Petrochem Global International FZE · Dubai, UAE

- Executed in-depth economic analyses to support strategic decision-making across field operations, reducing assessment turnaround time and improving accuracy of operational reports.
- Led a multidisciplinary team in the end-to-end strategic overhaul of field operations, achieving measurable improvements in process efficiency while ensuring HSE (Health, Safety & Environment) compliance.
- Diagnosed and resolved critical operational bottlenecks through root-cause analysis and prompt intervention, minimising downtime and operational risk.
- Conducted ongoing economic evaluations to benchmark operational performance against targets and inform procurement and resource allocation decisions.
- Coordinated with cross-functional stakeholders to maintain standard operating procedures (SOPs) and regulatory compliance across field activities.

Head of Operations & Administration

May 2022 – May 2024

Excellent Brains Academy · Surat, India

- ▶ Oversaw end-to-end academy operations including staff scheduling, resource planning, vendor coordination, and facility management for a multi-programme educational institution.
- ▶ Managed student enrolment workflows, fee collection records, and performance tracking databases, ensuring accurate data management and timely reporting.
- ▶ Developed and implemented operational processes and SOPs that standardised daily workflows across administrative, academic, and support functions.
- ▶ Coordinated logistics for batch scheduling, examination management, and academic calendar planning across multiple concurrent programmes.
- ▶ Handled budgetary oversight for operational expenditures, balancing cost control with quality of service delivery.

Coordinator & Departmental Operations Lead

Apr 2022 – Mar 2023

Noble Public School · Surat, India

- ▶ Coordinated curriculum planning and timetable logistics for multiple grade levels, liaising with administration to ensure on-time delivery of academic programmes.
- ▶ Maintained accurate documentation of student performance, attendance, and academic records in compliance with institutional requirements.
- ▶ Supported operational decision-making by tracking departmental KPIs and preparing progress summaries for senior management review.

Administrative & Operations Executive

Apr 2015 – Sep 2016

DL GTPL Cabnet Pvt. Ltd. · Surat, India

- ▶ Managed day-to-day back-office operations including documentation, record-keeping, and administrative workflows, maintaining high standards of accuracy and organisation.
- ▶ Oversaw customer care operations, directly handling escalations and ensuring service-level agreements (SLAs) were met consistently.
- ▶ Maintained comprehensive accounting records and supported financial reporting, using data entry and management software for meticulous record accuracy.
- ▶ Identified and implemented targeted business improvement initiatives that streamlined internal processes and reduced administrative overhead.
- ▶ Coordinated with vendors and internal departments to manage supply of operational materials, ensuring uninterrupted business continuity.
